

James Blunt - All The Love That I Ever Needed

tom:

Intro: Am F C C Am

Am I looking older?

'Cause, girl, you look the same

Did I see a sadness

Written on your face?

Am
One life

Did I leave it too late?

Realised that I didn't say the words like I should have done

I never felt this way for anyone

F There's something I forgot to tell you

Something only I knew

F All the love that I ever needed, I got it from you

I know it's hard to believe it

With all the shit that I do

F But all the love that I ever needed, I got it from you

Did I give you pleasure

Or did I give you pain?

Did I leave you sleepless

Thinkin' I won't change?

Am
One life

Did I leave it too late?

Realised that I didn't say the words like I should have done

I never felt this way for anyone

F There's something I forgot to tell you

Something only I knew

F All the love that I ever needed, I got it from you

I know it's hard to believe it

With all the shit that I do

F But all the love that I ever needed, I got it from you

F It took some time to realise

That every day you saved my life (you saved my life)

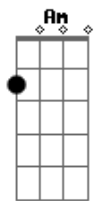

G And all the love that I could find, I got it from you (I got it from you)

F There's something I forgot to tell you

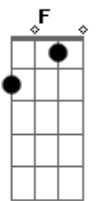

Something only I knew

F All the love that I ever needed, I got it from you
