When I met you, you were so u nique
                                                G7M
Had a little thing I'd love to keep
Every movement carried much mys tique
 I knew right then I'd carry on
     Bm7
To you I knew my heart belongs
 [Refrão]
                                                                                                                                    Bm7
You, you give me something
Something that nobody else can give
                                                                     D
You See my heart, has started thumping
                                           G7M
                                                                                                                                                                                                    Bm7
You're the one I truly know I dig
 [Segunda Parte]
Like the sunbeams, from a perfect summer day
                                                                                                                                                            Bm7
Heaven only seems a step away
                                                       D
when I'm with you I just celebrate
                                       G7M
I'm hoping my message gets through
There's never been someone like you
 [Terceira Parte]

                                                                                                                                 Bm7
Cos you got these little things
                                                                                                                    Bm7
That I know
                                                                                                 I've never seen
