

# Jason Mraz - 1000 Things

Tom: **G**

ooh lululu lei.....

**C**  
I'm overjoyed and I'm overloved  
**C**  
I'm feelin lucky like a little boy  
**C**  
Who's hiding undercover and looking to  
discover  
Any way to play his part inside this darkened cave  
Well, the meaning of life it starts in the night-light  
Close your eyes and I hope you'll see mine  
I've seen a 1000 things in one place  
And I stopped my counting when I saw  
your face  
Erasing memories well I feel as though  
I never seen that face before  
'til I saw your

eyes and they're smilin back at me  
through my tears  
I've been counting all this years  
Suddenly the 1000 things I've seen were  
nothing more than dreams of of of you  
and me  
You and me so quietly at a stand still  
Fortunately you will...  
You will kiss me I will, I will kiss you  
back on the fact of the matter is  
I don't know what the later is oh no way  
You see I always wanted to kiss you  
And I always wanted to run from you  
And I always wanted to miss you  
and I always wanted to come for you  
So how do you do?
