

# Jay Buchanan - Sway

tom:

[Primeira Parte]

Have you seen  
 The way that desire comes and goes?  
 I want you now, while we're still young  
 I want you old

[Pre-chorus]

Let this fire that lay between us glow forever now  
 Let this work of my affection hang high on your wall

[Refrão]

Sway together, sway with your man  
 Let the night and its fever tremble in your hand  
 Let the wolves at the door go away now  
 I ain't feeding them no more, I want to sway

[Segunda Parte]

Did you sing  
 With a delight I've never known?

Crushing the doubt, clearing me out  
 And calling me home

[Pré-Refrão]

Let the lightning of this moment live forever now  
 Let the magic that you whisper travel high over it all

[Refrão]

Sway together, sway with your man  
 Let the night and its fever tremble in your hand  
 Let the wolves at the door go away now  
 I ain't feeding them no more, I want to sway

[Solo] E Bm A E

Oh oh oh oh, awh awh awh

[Final]

I was so lost without you  
 I didn't know before I knew you  
 So, so

## Acordes
