

# Jeremiah Lloyd Harmon - Almost Heaven

tom:

D

There's an angel in the window

On a West Virginia church door swinging open

And he's pointing to the exit sign

Said you'll never walk on water

If you wait until the river's frozen over

In the Shenandoah summer

Well it was almost heaven

Choirs singing in robes of white

Almost heaven

Lovers laying side by side but

When we reach forever

Will there be a place where you and I

may call home

( Abm Ebm Db4 Db )

So I keep a candle burning

And I pray to see that saint I knew for certain

But it's just my own reflection now

And that silhouette in the window

Is the shape of someone I don't quite remember

Dancing in the fire

Well it was almost heaven

Choirs singing in robes of white
