

# Jeremy Camp - Again

tom:

Intro: F Am G C

Here I am again

Back in the same

Place I've been

So many times

Here I am again

Losing the battle

And thinking I'll never

Win this fight

I'm so ashamed, down on my knees

I know there's grace but is there grace for me?

Fall after fall, prayer after prayer

Father, will you still be there?

Here you are again

Forgiving, redeeming my heart again

Standing me up on my feet again

You show me your mercy will

Never run out

Will never run out

I can breathe again

Knowing I'm loved, I feel free again

No matter how long

I've been wandering

When I think that I've gone

Too far

Here you are

Again

Here I am again

Reminded of all of the ways

You're patient with me

What a faithful friend

Through every climb, every fall

Acordes

You never leave

Here you are again

Forgiving, redeeming my heart again

Standing me up on my feet again

You show me your mercy will

Never run out

Will never run out

I can breathe again

Knowing I'm loved, I feel free again

No matter how long I've been wandering

When I think that I've gone

Too far

Here you are

Again

You'd go anywhere

You'd give anything

Even lay down your life

To bring new life to me

Here you are again

Forgiving, redeeming my heart again

Standing me up on my feet again

You show me your mercy will never run out

Will never run out

I can breathe again

Knowing I'm loved, I feel free again

No matter how long I've been wandering

When I think that I've gone

Too far

Here you are

Again

When I think that

I've gone too far

Here you are

Again
