

Jeremy Shada - Stranger

tom:

Gb (forma dos acordes no tom de F)

Capostrate na 1ª casa

Intro: F Gm Dm Bb C C7

Little did I know
You were gone before you even left
Little did I know
Our kiss goodbye was the last I'd ever get
Little did I know
You'd already tasted someone else's lips
Little did I know
You'd move on so quick

Now I'm searching through our memories
Searching for ways to you and me
But no matter what I do
There's a stranger holding you
Ooh, oh, ooh
A stranger's holding you

Little did I know
The memory of us would haunt these streets
Little did I know
I'd have so much to say but no words to speak
Little did I know
I'd see you with him at the place we used to meet

Little did I know

You have a smile that I'd never seen

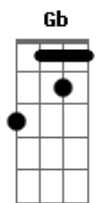

And I'm searching through our memories
Searching for ways to you and me
But no matter what I do
There's a stranger holding you
Ooh, oh, ooh
A stranger's holding you

Little did I know
You only told me what I wanted to hear
Little did I know
You lied every time you said: I love you, dear

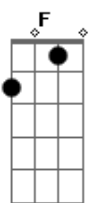

Now I've searched through all our memories
There's no way to you and me
No matter what I do
A stranger's gonna be holding you

Now I'm seeing all the signs I'd missed
The person I loved didn't really exist
After all that we've been through
I guess, you're just a stranger too
Ooh, oh, ooh
You're just a stranger too
Ooh, oh, ooh
The stranger was always you
