               Bb
Intro: Bb Gm Eb F F
Can?t believe
The world that you?ve revealed to me
For the first time I feel truly free
                F F
It?s all thanks to you
 Bb
I feel the same
You pushed me through the doubt, the pain
                Eb
And as our paths collide again
I know what to do
        Fb
Take my hand
As we stand
Let?s face the world
There is nothing that can defeat us
      Fb
Day and night
   Bb
You and I
Let?s show the world
That nothing will come between us
Thanks to you I?ve become
Confident to know I am free
      Bb Eb
When I feel overrun
        Gm
It?s no longer all on me
Hearts and minds now combined
I am stronger when you?re by my side
```

```
I can share all my cares
You?ve laid bare my deepest flaws
       Bb Eb
You caught me unaware
   Gm
Now my fate is tied with yours
      Eb Gm
Hearts and minds now combined
I am stronger, so stay by my side
( F Eb F )
What is this feeling now?
     Eb
I cannot fall for him
            Eb Gm
His eyes move me somehow
I shouldn?t start something
I know that look
         Fh
Dancing between those eyes
        Eb Gm
It is the same one I?ve
Tried to disguise
Eb
      Bh
I?m sorry
         Eb
My heart is already
      Fb
Somebody else?s
We can?t see this through
Eb
Wait don?t go
Just give it time to grow
          Eb
We could be great I know
I?m falling for you
```
