

Jeremy Zucker - End - Stripped

tom:

G

Intro:

[Primeira Parte]

I should've seen this through
But I knew how it could end

I guess things don't change
I let feelings fade again

[Pré-Refrão]

And I won't let go
What I called a home unless
It slipped right through

My fingers in the rain
But I've thrown it all
Over waterfalls

[Refrão]

I'm staring at the clouds
You know I hate this weather
But we can work it

Out I swear I could do better
If you let me
So we wait for things to

Change
I never thought that this could end
If I'm not with you

How could I fall asleep again

[Segunda Parte]

What's wrong with the lights low
Just tell me what it is you're tryna say
'Cause in the end you'll understand
I'm already a world away
And I see you haven't changed

[Pré-Refrão]

'Cause this shit gets old
With a heart of gold, you know
If I need you I'll see you in my dreams
But I've thrown it all
Over waterfalls

[Refrão]

I'm staring at the clouds You know I hate this weather But we
can work it

Out I swear I could do better
If you let me
So we wait for things to

Change
I never thought that this could end
If I'm not with you

How could I fall asleep again

[Final]

You know that I've been here times before
And no one's watching
You won't ever know, that's right
You won't ever save my life
You won't ever change my mind
