

Jerry Lee Lewis - Lord I've Tried Everything But You

Tom: **C**

I guess I've tried about everything
 From drinking to hiding my wedding ring
 I've gambled and I've cheated walked on a friend or two
 Well I've lived like a fool just plain tired
 I feel all dirty all rotten inside
 Oh Lord I've tried everything but you
 Oh Lord I've tried everything but you everything but you
 Now they tell me you're the man I've got to go through

Well cleanse my soul and ease my mind
 Help me Lord while there's still time
 Oh Lord I've tried everything but you
 Well I almost came your way one time
 When I lost my family and part of my mind
 But the devil's neon lights came shining through
 Well I followed them right back where I'd been
 Doing the same things over again
 Now Lord I've tried everything but you
 Oh Lord I've tried everything but you
