

Jerry Lee Lewis - When Baby Gets The Blues

Tom: **C**

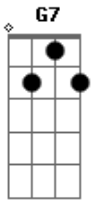

For months she's a perfect wife and a mother **G7**
 You'd never dream that things could go so wrong **C**
 But like a cloud across the skies **F**
 I see the sadness fill her eyes **G7**
 Then one day I'll come in and she'll be gone **C**
 When baby gets the blues my world turns over **F**
 While she's out somewhere with her bright lights and her **D7** **G7** booze
 Until the day she comes back home ashamed and sober **C** **F**
 My world stops turning when baby gets the blues **G7** **C**

As long as she has me I know I'll keep forgiving **G7**
 Though I'm afraid of how much I'll someday lose **C**
 I just can't tell you what a happy world that I live in **F**
 In between the times that my baby gets them ol' blues **G7** **C**
 When baby gets the blues my world turns over **F** **C**
 While she's out somewhere with her bright lights and her **D7** **G7** booze
 Until the day she comes back home ashamed and sober **C** **F**
 My world turns over when baby gets the blues **G7** **C**
