[Verse 1]

You look at me with empty eyes
You hold me but I cannot feel your warth
I tell you what I'm thinking
And you pretend there is nothing going on
But something must be wrong

[Pre-Chorus]

Oh, is this the best script that you have written?
I'm sure I've heard it before

[Chorus]

So keep on running, running, running, baby run
Cuz when I turn around you're already gone
Take with you everything you want but please just leave me now
You'll never get the chance to see me cry
So keep on running like you always do and don't look back
You've done it before, you'll do it again, my baby run

[Verse 2]

I've been here in the same scene
It hurts me but I have to let you go, and let you know
I gave as much as I could while my heart was trying to survive and stay alive

[Pre-Chorus]

Acordes

Oh, is this the best script that you have written?

No, it doesn't fit you anymore

[Chorus]

So keep on running, running, running, baby run
Cuz when I turn around you're already gone
Take with you everything you want but please just leave me now
You'll never get the chance to see me cry
So keep on running like you always do and don't look back
You've done it before, you'll do it again, my baby run

[Bridge]

Ooh, the same old tricks, the same old story
I, I've learned them all

[Chorus]

So keep on running, running, running, baby run
Cuz when I turn around you're already gone
Take with you everything you want but please just leave me now
You'll never get the chance to see me cry
We've tried so many times to say the word, "goodbye",
So this time I'm not even gonna try
So keep on running like you always do and don't look back
You've done it before, you'll do it again, my baby run
You've done it before, you'll do it again, my baby run
You've done it before, so go right ahead, my baby run
