

Jessie J - Nobody's Perfect

```
Tom: Bb
                                                               Treat the people I love like I wanna be loved
                                             G )
 (com acordes na forma de
Capostraste na 3º casa
                                                                                  Fm
When I'm nervous I have this thing yeah I talk too much
                                                               This is a lesson learnt and I hate that I let you down and I
                                                               feel so bad about it
Sometimes I just can't shut the hell up
It's like I need to tell someone anyone who'll listen
                                                               I guess karma comes back around cause now I'm the one that's
                                                               hurting yeah
And that's where I seem to fuck up, yeah
                                                               And I hate that I made you think that that the trust we had is
I forget about the consequences, for a minute there I lose my
senses
                                                               So don't tell me you can't forgive me
And in the heat of the moment my mouth's starts going the
words start flowing
                                                               Cause nobody's perfect, no, no, no, no, no, no, no, no,
                                                               no, no, no, no, no
But I never meant to hurt you, I know it's time that i learnt
                                                               I'm not a saint no not at all, but what I did it wasn't cool
Treat the people I love like I wanna be loved
                                                               But I swear that I'll never do it again to you
                  Em
This is a lesson learnt and I hate that I let you down and I
                                                               I'm not a saint, no not at all, but what I did it wasn't cool
feel so bad about it
                                                               But I swear that I'll never do it again to you
I guess karma comes back around cause now I'm the one that's
                                                               And I hate that I let you down and I feel so bad about it
hurting yeah
And I hate that I made you think that that the trust we had is I guess karma comes back around cause now I'm the one that's
                                                               hurting yeah
So don't tell me you can't forgive me
                                                               And I hate that I made you think that that the trust we had is
Cause nobody's perfect, no, no, no, no, no, no, no, no, no,
                                                               So don't tell me you can't forgive me
no, no, no, no, no
                                                               Cause nobody's perfect, no, no, no, no, no, no, no, no, no,
If i could turn back the hands of time
                                                               no, no, no, no, no
I swear I never wanna cross that line
                                                               And I hate that I let you down and I feel so bad about it
I should of kept it between us but no I went and told the
                                                               I guess karma comes back around cause now I'm the one that's
whole world how I feel and oh
                                                               hurting yeah
So I sit and I realise with these tears falling from my eyes
I gotta change if I wanna keep you forever
                                                               And I hate that I made you think that that the trust we had is
I promise that I'm gonna try
                                                               So don't tell me you can't forgive me
But I never meant to hurt you, I know it's time that i learnt
                                                               Cause nobody's perfect
