Free
alright, she

It's

Says it's alright
Take anything

You want from me
anything

anything

Well she's walkin
round

With a circus mind

Butterflies and zebras

And, uh fairy tales
think's about

Riding with the wind

When I'm sad
comes to me

gives to me

through the clouds

that's running

and moonbeams

that's all she ever

(With reverb or wah wah or something)
yeah

She

With a thousand smiles

She

wing

Fly on little

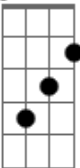

Yeah, yeah, yeah

... little wing wing
