A night of love
Is a night to share
Tonight it make you warm
So that I take care
A top the hits
Is something that you share
And true love can be good
But you both was scared

[Solo]

G D C

Is a night to share
Tonight you could (or took) your love
So that I take care

A broken heart
Is sometimes hard to bare
Just let it fade away (Just let it fade away)

G D Em
And find someone who cares (And find someone who cares)
And a night that's warm
Is a night to share
Tonight you could (or took) your love
So that I take care
So that I take care
So that I take care
So that I take care

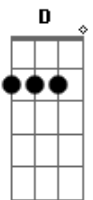

G D C
And a night of love
Is a night to share
Tonight you could (or took) your love
So that I take care
So that I take care
So that I take care

G D C
And a night that's warm
Is a night to share
Tonight you could (or took) your love
So that I take care
So that I take care
So that I take care
