

# Jimmy Eat World - Drugs Or Me

Tom: **C**

this is a song from "futures", new record by to make it more easy to play, and this song is most played with the piano, wich part is very easy...  
Intro: This is the piano part arranged for guitar, maybe these are not the perfect notes, but I re-arranged the piano part to make it sounds better with a guitar...

verse (intro part)

**D** **Bm**  
Stay with me, you're the one I need  
**G** **D**  
you make the hardest things seem easy  
**D** **Bm**  
Keep my heart somewhere drugs don't go  
**G** **D**  
where the sun shines low always keep me close

chorus

**D** **Bm**  
If only you could see the stranger next to me  
**G**  
You promised you promised that you're done  
**D**  
but I can't tell you from the drugs

repeat verse:

Don't let go, you dig a great big hole  
down an endless hole we'll both go  
You're so blind, you can't see me this time  
hope comes from inside and I feel so low tonight

repeat chorus:

If only you could see the stranger next to me  
You promised you promised that you're done  
But I can't tell you from the drugs  
I wish that you could see this face in front of me  
You're sorry, you swear it, you're done  
But I can't tell you from the drugs

through the whole song you can play the same

(take me) I need your help  
(so far away) To pull me up take the pain  
(take me) Out from me  
(so far away) Out from me

(Take me) If only you could see (I need your help)  
(So far away) The stranger next to me (To pull me up take the pain)  
(Take me) You promised you promised that you're done (Out from me)  
(So far away) But I can't tell you from the drugs (Out from me)

(Take me) I wish that you could see (I need your help)  
(So far away) This face in front of me (To pull me up take the pain)  
(Take me) You're sorry, you swear it, you're done (Out from me)  
(So far away) But I can't tell you from the drugs (Out from me)

Keep my heart somewhere drugs don't go  
where the sun shines low always keep me close

END...

Maybe this song would be good even if played with a capo on the first fret, so playing this chords through the song (**C** - **Am** - **F** - **C**), but I think it's ok played in **D** then you can do what you want, it's another beautiful eNRICO
