

# Jimmy Eat World - Future

Tom: **Eb**  
Intro: **Eb**

**Eb**  
I, I always believed in futures,  
I hope for better in November.  
Try the same booth, same lucky numbers.  
It could be a cold night for a lifetime.

**Eb** **Eb**  
Hey now, you can't keep singing endlessly,  
**Eb** **Eb**  
My darling, how long until this sun burns me?

Chorus:  
**Ab**  
Say hello to good times,  
**Eb** **Eb** **Eb**  
Trade up all the fast lines  
**Ab** **Eb**  
We close our eyes while the nickel and dime take the streets  
**Eb** **Eb**  
Completely.

**Eb**  
I, I always could count on futures,  
And things would look up, they'd look up.  
Why, so hard to find a balance  
Between living decent and the cold and real.

Hey now, what is it you think you see?

My darling, now's the time to disagree.

{Repeat Chorus}

**Bb**  
**Ab** **Bb** **Eb** **Cm**  
Ooooooh, ooooooh...  
**Ab** **Bb** **Eb** **Cm**  
Ooooooh, ooooooh...  
**Ab** **Bb**  
Hey now, the past is told by those who win,  
**Eb** **Cm**  
My darling, what matters is what hasn't been.  
**Ab** **Bb**  
Hey now, we're wide awake and we're thinking,  
**Eb**  
My darling, believe your votes can mean something.

Chorus:  
**Ab**  
Say hello to good times,  
**Eb** **Eb** **Eb**  
Trade up all the fast lines  
**Ab** **Eb**  
We close our eyes while the nickel and dime take the streets  
**Cm**  
Completely.  
**Ab** **Bb** **Eb**  
We close our eyes while the nickel and dime take the streets...  
**Eb** **Eb**  
Completely.

## Acordes
