

# João Nogueira - Boteco do Arlindo

Tom: F

(intro) C Dm G7 C Dm G7 C

Gripe cura com limão, jurubeba é pra azia

Do jeito que a coisa vai, o boteco do Arlindo vira drogaria

O médico tava com medo que o meu figueiredo não andasse bem

Então receitou jurubeba, alcachofra e de quebra carqueja também

Embora fosse homeopatia a grana que eu tinha era só dois barão

Mas o Arlindo é pai d'égua, foi passando a régua, eu fiquei logo bão

(refrão)

Tem vinho pra conjuntivite, licor pra bronquite, cerveja pros rins

Assados e rabos-de-galo pra todos os males e todos os fins

O Juca chegou lá no Arlindo se desmilingüindo, querendo apagar

Tomou batida de jambo, recebeu o rango e botou pra quebrar

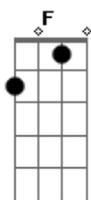

Batida de erva-cidreira se der tremedeira ou palpitação

Pra quem tá doente do peito faz um grande efeito licor de agrião

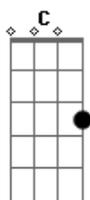

E toda velhice se acaba se der catuaba prum velho tomar

Meu tio bebeu lá no Arlindo e saiu tinindo pra ir furunfá
