

Joe Jonas - You're My Favorite Song

```
tom:
              Bb (forma dos acordes no tom de C )
                          Afinação: Db Gb B E Ab Db
Capostraste na 1ª casa
Words don't come easy
        Eb Bb
Without a melody
I'm always thinking
          Eb Bb
In terms of do-re-mi
I should be hiking, swimming
           Bb
Laughing with you
Db C F
Instead, I'm all out of tune
But what you don't know
You lift me off of the ground
You're inspiration
          Eb
You helped me find my sound
Just like a baseline in half-time
 Eb Bb
You hold down the groove
       C
That's why I'm counting on you
 And if I heard you on the radio
    C
 I'd never want to change a single note
```

```
It's what I'm trying say all along
Bb Bb
You're my favorite song
I'm in a session, writing tracks
      Fb
You got another class to teach
And then rehearsal with the band
         Eb
You're always one step out of reach
I'm looking for some harmony with you
It comes so naturally
  You help me find the right key
  And when I hear you on the radio
                  G
  I never want to change a single note
         D Bm Em7
  It's what I tried say all along
              G
You're my favorite song
My favorite song
  And when I hear you on the radio D G
  I never want to change a single note
      D Bm Em7
  It's what I tried say all along
      G
              D
You're my favorite song
       G
You're my favorite song
```
