The Gods of the city have called my name  
 It means more to them than it means to me somehow  
 I left my body  
 I left my fate  
 But it is so hard to keep away now

Nothing is final because  
 it seems all the while

There wasn't anything for me  
 I always faked my smile

There's so many careless angels responsible for me

They give me disease  
 They give me a pain in my neck to feed off me  
 saying pay us the cost and we'll be gone  
 now they shut my eyes and i can't see... now

(solo) Eb F Gm Eb F C7 Eb F Gm F

These are the times I was scared of  
 These are the fates I pushed out of the way  
 Now they come back here and haunt me... It's plain to see  
 who the winner and loser will be

(ending solo) Eb F Gm Eb F C7 Eb F Gm F
