

## John Mayer - Helpless

```
Tom: C
                                                                       Dm7
                                                               If I'm helpless tell me now
  Primeira parte:
                                                                      Αm
                                                               Tell me now
Dm7 C Dm7
                                                                        Dm7
The same drink that gets me out the door
                                                               And I'll stop trying to figure it out
    C Dm7
Is the same drink that puts me on the floor
                                                               Solo:
Dm7 C Dm7
And the new thing I wanna try some more
                                                               Dm7
                                                                     Am (x7)
Dm7 C Dm7
                                                               E7
Is the same mistake I used to make before
                                                               E7
                                                                     Eb
Refrão:
If I'm helpless tell me now
       Am
Tell me now
       Dm7
If I'm helpless tell me now
                                                               Ponte:
       Am
                                                               Dm7 Am7
Tell me now
       Dm7
                                                                    Help me
If I'm helpless tell me now
                                                                    Am7
      Am
                                                                    Help me
Tell me now
                                                               Dm7
                                                                   Am7
        Dm7
                                                                    Help me
And I'll stop trying to figure it out
                                                               Refrão:
                                                                       Dm7
Dm7 Am
                                                               If I'm helpless tell me now
Segunda parte:
                                                                      \mathsf{Am}
                                                               Tell me now
                                                                       Dm7
The same brain that brings me ecstacy
                                                               If I'm helpless tell me now
Dm7 C Dm7
Is the same pain that gets the best of me
                                                               Tell me now
Dm7 C Dm7 Am
And the one I love the most just said to me
                                                                       Dm7
                                                               If I'm helpless tell me now
Dm7 C Dm7
                                Am7
                                                                      Am
A broken heart is all I'll ever be
                                                               Tell me now
                                                                       Dm7
Refrão:
                                                               And I'll stop trying to figure it out
                                                                      Dm7
                                                               If I'm helpless
       Dm7
If I'm helpless tell me now
                                                               If I'm helpless
Tell me now
                                                                      Dm7
                                                               If I'm helpless
       Dm7
If I'm helpless tell me now
                                                                         Dm7
                                                               Then I'll stop trying to figure it out
Tell me now
                                                               (Dm7 Am) (x8)
