

John Mayer - New Light

```
Tom: E
            [Intro] Am7 D G7M C
                                           C Bm7
                                            Am7 D G7M
Am7
I'm the boy in your other phone % \left( 1\right) =\left( 1\right) \left( 1\right) 
                                                                                                                                                                                                            C Bm7
Lighting up inside your drawer at home all alone
Pushing 40 in the friend zone
                                                                                                                                                             C
                                                                                                                    C
We talk and then you walk away every day
                                                                                                           D
Oh, you don't think twice 'bout me
                                                                                                                 В7
And maybe you're right to doubt me, but
But if you give me just one night
                                                                                                               C Bm7
You're gonna see me in a new light
                                                          D
Yeah, if you give me just one night
                                      C
                                                                                                                                     C Bm7
To meet you underneath the moonlight
                                                                                          D
Oh, I want a take two, I want to breakthrough
                                                                                      C
                                                                                                                                   C Bm7
I wanna know the real thing about you
Am7 D
So I can see you in a new light
Take a ride up to Malibu
                                                                                                                                                                               C
I just wanna stay to look at you, look at you
What would it matter if your friends knew?
                                                                                                  C
                                                                                                                                             C Bm7
Who cares what other people say anyway
                                                                         D
Oh, we can go far from the end
And make a new world together baby
But if you give me just one night
                                                                                                                        C Bm7
You're gonna see me in a new light
Am7
                                                                    D
Yeah, if you give me just one night
```

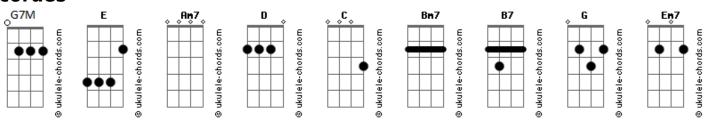

```
To meet you underneath the moonlight
Am7
               D
Oh, I want a take two, I want to breakthrough
               C
                        C Bm7
I wanna know the real thing about you
Am7 D
So I can see you in a new light
( G C Em7 D )
( Am7 D G7M C )
( C Bm7 )
( Am7 D G7M )
Em7
Ah ah ah ah
But if you give me just one night
                    C Bm7
You're gonna see me in a new light
           D
Am7
Yeah, if you give me just one night
G7M C
To meet you underneath the moonlight
Am7
What do I do with all this
What do I do with all this love that's running through my
veins for you
Am7
What do I do with all this
What do I do with all this love that's running through my
veins for you
What do I do with all this
What do I do with all this love that's running through my
veins for you
Am7
What do I do with all this
What do I do with all this love that's running through my
veins for you
Am7
What do I do with all this?
                             G7M
                                               C Bm7
```
