John Mayer - Vultures

tom:

```
                    B
               Gbm
Some of us, we're hardly ever here
                                    E
The rest of us, we're born to disappear

How do I stop myself from being just a number?

How will I hold my head to keep from going under?
A
Down to the wire
                    B
I wanted water, but I'll walk through the fire
                              A
If this is what it takes to take me even higher
                              B
Then I'll come through like I do when the world keeps
                         Gbm
Testing me, testing me, testing me

How did they find me here? What do they want from me?
                                               E
All of these vultures hiding right outside my door

I hear them whispering, they're tryin' to ride it out

They've never gone this long without a kill before
A
Down to the wire
```
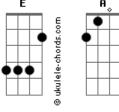

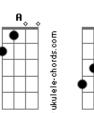

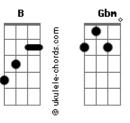

```
                                      B
I wanted water, but I'll walk through the fire
                              A
If this is what it takes to take me even higher
                              B
Then I'll come through like I do when the world keeps
                         Gbm
Testing me, testing me, testing me

Wheels up, I got to leave this evening
                                            E
Can't seem to shake these vultures off of my trail

Power is made by power being taken

So I keep on running to protect my situation
A
Down to the wire
                    B
I wanted water, but I'll walk through the fire
                              A
If this is what it takes to take me even higher
                              B
Then I'll come through like I do when the world keeps
                         Gbm
Testing me, testing me, testing me
A      B
Ooooooh, ooooooh
Gbm
What'cha gonna do about it?
Gbm
Don't give up, give up, give up
```
