

# Johnny Cash - As Long As The Grass Shall Grow

Tom: A

I met you in the shadows and your face was all aglow, D  
 I remember it so well though it was many years ago A  
 We both new something happened without a lot to say, E  
 but we had other lives and so we went our separate ways. D  
 But our hearts communicated and every time we passed, E  
 we were gradually building something that would forever last. A

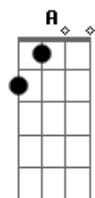

As long (as long) as the moon (as the moon) shall rise, E  
 (as the moon shall rise), E  
 as long (as long) as the rivers (as the rivers) flow, (as the rivers flow), D  
 as long (as long) as the sun (as the sun) will shine, A  
 as long, (as long) as the grass, shall grow. D

My heart was calling for you when one night you came along, A  
 we danced around each other but then we sang our song. D

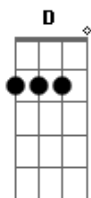

Our harmony was shaky and the pitch not very true, E  
 but then you gave in to me and I gave in to you. A  
 We had to fight the world and we fought with all we had, D  
 we vowed to be together through the sweet times and the bad. A  
 I hear you whisper every night, may I have this dance ? D  
 And though I'm not light on my feet, I always take the chance A  
 We have gone through many storms and often walked through fire, D  
 but always our loving faith took us higher and higher. A  
 We know the mystery of life, its love hard and long, D  
 (I love you) I love you and I always will as long? A

As long (as long) as the moon (as the moon) shall rise, E  
 (as the moon shall rise), E  
 as long (as long) as the rivers (as the rivers) flow, (as the rivers flow), A  
 as long (as long) as the sun (as the sun) will shine, A  
 as long, (as long) as the grass, shall grow. A
