

Johnny Cash - One And One Makes Two

Tom: **D**

G **D**
Oh, the number one is not my favorite number,
A
D 'cause one means only me and there's no you,
G but one plus one, you see, makes two, that's you and me,
D and it's more fun when one and one make two.

G
D Oh yes, one and one make two, at least I'm pretty sure they do,
A
D oh yes, it's true, one and one make two.
D Now, let me show you what I mean.

D
G Now, you say you want to play upon a seesaw,
A
D you're all alone and you don't know what to do,
G well, just go and find a friend and sit him on the other end,
A
D you'll have more fun when one and one make two.

G
D Oh yes, one and one make two, at least I'm pretty sure they do,
A
D oh yes, it's true, one and one make two.
D

G
Now, you say you want to play a game of baseball,
A
D and you look around and there's no one but you,
G well, just find someone you know and he will catch the ball you throw,
A
D you'll have more fun when one and one make two.

G
D Oh yes, one and one make two, at least I'm pretty sure they do,
A
D oh yes, it's true, one and one make two.
D Now there's the best reason of all that I like the number two right here.

D
G Now, everyone needs somebody to share with,
A
D to love and help and care for through and through,
G and there's no one that I've known who can share or love alone,
A
D it's a lot nicer when one and one make two.

D
Oh yes, one and one make two, at least I'm pretty sure they do,
A
D oh yes, it's true, one and one make two.
A **D** **A**
D I said it's true, one and one makes two. One one.
