Johnny Cash - Thank's a Lot

Tom: G

```
    G                                    D7            G
You're tellin' everyone in town that I don't treat you right
              C              D7              G
You even say I stay away and don't come home at night
      C                    G
I'm losing you and you are all I've got
          D7            G
Thanks a lot    thanks a lot

                      C                    D7
It seems you like to hurt me and you know I'm good to you
              C              D7            G
I'd give you anything I own do anything you want me to
      C                        G
Yeah now you really got me on the spot
          D7            G
Thanks a lot    thanks a lot

C                              G
Still I would forgive you if you'd let me
D                          G
I'd be glad if we could try again
```

```
              C                           G
But it seems that you're just out to get me
          D                              G
And it looks as if you're just about to win

                        C        D7          G
No matter what you do I always will love you
              C                    D7          G
And you will never know how it hurts to see you go
                    C              D              G
And you're callin' me those things you know I'm not
          D7              G
Thanks a lot      thanks a lot

                  { guitar - piano }

G                    C      D7            G
No matter what you do I always do love you
              C                    D7            G
And you will never know how it hurts to see you go
              C              D7              G
You say I'm happy but you know I'm not
              D7            G          C        D  G
Thanks a lot      thanks a lot      thanks a lot
```
