Johnny Flynn - The Water

Tom: C
Intro: C G C F
      C G Am F

```
C              G          F
All that I have is a river
     Am            E
The river is always my home
        C        F
Lord, take me away
    Am          F
For I just cannot stay
      C       G           Am
Or I'll sink in my skin and my bones

     C        G        C          F
The water sustains me without even trying
     C        G          Am
The water can't drown me, I'm done
         F    C
With my dyyyyying

        C        G           F
Please help me build a small boat
Am                     E
One that'll ride on the flow
          C        F
Where the river runs deep
        Am          F
And the larger fish creep
      C        G         Am
I'm glad of what keeps me afloat

     C        G        C          F
The water sustains me without even trying
     C        G          Am
The water can't drown me, I'm done
         F    C
With my dyyyyying

      C        G        F
Now deeper the water I sail
```

```
          Am                    E
And faster the current I'm in
              C            F
That each night brings the stars
             Am        F
And the song in my heart
         C         G         Am
Is a tune for the Journeyman's tale

     C        G        C          F
The water sustains me without even trying
     C        G          Am
The water can't drown me, I'm done
         F    C
With my dyyyyying

     E                       Am
Now the land that I knew is a dream
     E                         Am
And the line on the distance grows faint
         C         F        C         F
So wide is my river, the horizon a sliver
         C         F        Am        F
The artist has run out of paint

            C          G              F
Where the blue of the sea meets the sky
          Am                    E
And the big yellow sun leads me home
         C          F
I'm everywhere now
     Am          F
The way is a vow
          C         G              Am
To the wind of each breath by and by

     C        G        C          F
The water sustains me without even trying
     C        G          Am
The water can't drown me, I'm done
         F    C
With my dyyyyying
```
