Speed it up, slow it down
Em7
I need control, I need it now
I need to live a thousand times
I cannot stop, I cannot cry
I will not fret, I will not die
I am machine, I stay alive
Sometimes I think, sometimes I think
Sometimes I think, sometimes I (ooh)
I've got no aim, a million rounds, is nothing real?
A hundred pounds of heavy steel, it feels so loud
Tied to my chest, it feels so loud
I'll take a peek to across the peaks
This grass is neat, I'm quite unique
But I'd like to be, but I'd like to be
And I hope this is the hardest part
G7M
           Gb
We try, we try
And when they say they're satisfied
They're lying, they're lying
              Em7
Do forgive me, I've seen the treasure's in the bloom
                            Em7
                                              G D

```
But right now, I'm just not strong enough for you
Sorry, you can see it in my retina
Focus in and out, I'm doing better
Artificial ghost with no perception
I wanna be a chevy, not a sentra (yeah, yeah, yeah)
                 Em7
I don't feel the way they programmed me to feel today
Some pieces falling from the waist up
I'm so sorry for delays
Am7
I just need one moment to erase
That burning pain before the rage
I feel good, I feel good, I feel good (I fixed it)
And I hope this is the hardest part
We try, we try
And when they say they're satisfied
They're lying, they're lying
               Em7
Do forgive me, I've seen the treasure's in the bloom
Am7
                          Em7
But right now, I'm just not strong enough for you
                       Em7
And I hope this is the hardest part
We try, we try
Am7
And when they say they're satisfied
They're lying, they're lying
Am7
              Em7
Do forgive me, I've seen the treasure's in the bloom
                            Em7
But right now, I'm just not strong enough for you
