

# Jon Bellion - Overwhelming

Tom: C

Yeah, I think I got one  
 Her soul is presidential like Barack, son  
 Yeah, she call me Goose, I call her Maverick cause of Top Gun  
 They say we annoying, they just jealous cause we got love  
 Yeah, I got a hot one  
 She don't want no problem if there's not one  
 But people come around and try some stupid shit to start one  
 She'll give you the people's fuckin' elbow like The Rock, son  
 There is a potion in your lips, so sweet, I'd die  
 There is an ocean in your hips, so deep, I'd dive  
 I hear an opus when we kiss that completes my life  
 Yeah, I think I got one  
 N.C.  
 And every single little thing about her is so

Overwhelming  
 Everything about you is so overwhelming  
 When I think about you, it gets oh, oh, over - whelming  
 Cause everything about you is so overwhelming  
 Come over here and overwhelm me  
 Hey, do I impress you?  
 I really like the way you rock a sweatsuit  
 When you working out and I'm just watching how your legs move  
 They would think that you was, like, developed in a test tube  
 You deserve a theme song  
 You could be the shoulder that I lean on

Love it when you're late for work and try to slip your jeans on  
 You be bumping Chili Peppers all up in your Nissan  
 There is a potion in your lips, so sweet, I'd die  
 There is an ocean in your hips, so deep, I'd dive  
 I hear an opus when we kiss that completes my life  
 Yeah, I think I got one  
 N.C.  
 And every single little thing about her is so  
 Overwhelming  
 Everything about you is so overwhelming  
 When I think about you, it gets oh, oh, over - whelming  
 Cause everything about you is so overwhelming  
 Come over here and overwhelm me  
 You write checks that my ass can't cash  
 I bit a little more than I can chew  
 I bit a little more than I can chew  
 You write checks that my ass can't cash  
 I bit a little more than I can chew  
 I bit a little more than I can chew  
 Cause everything about you is so  
 Overwhelming  
 Everything about you is so overwhelming  
 When I think about you, it gets oh, oh, over - whelming  
 Cause everything about you is so overwhelming  
 Come over here and overwhelm me
