Intro: F#7M   Gb    Abm7   G7   Db4

        F#7M
I love you
                                 Ebm7  D#7M
It'll never be the same, not this way again
                  Ebm7   D#7M
With someone new,          but someone new
      E7M
Will just have to do
   Abm7              Db4   F#7M
Cause you never loved me         at all

You told me yourself

Why'd you stay with me baby
                           Ebm7  D#7M
You let me take the chance, left me making plans
        Ebm7   Bbm7
For nobody,       nobody

You said you were waiting
      E7M
For your heart to fall in love
     Abm7            Db4  F#7M
But you never loved me         at all

I was just your friend that's all

But they say

Gbm7  Gbm7   D7M   Dbm7
Time heals    all wounds
Bm7            Dbm7
 I guess you made up your mind baby
Gbm7  Gbm7   D7M   Dbm7
Time heals    all wounds
Bm7         Dbm7      Db4   F#7M
 I hope that time can heal        my heart
Heal my broken heart
Ebm7   Bbm7
      Cause I loved you
   Ebm7   Bbm7
And     I was true
                    E7M
You know I've been carrying a failure's cross
      Ebm7          C
I did everything to win your heart
```
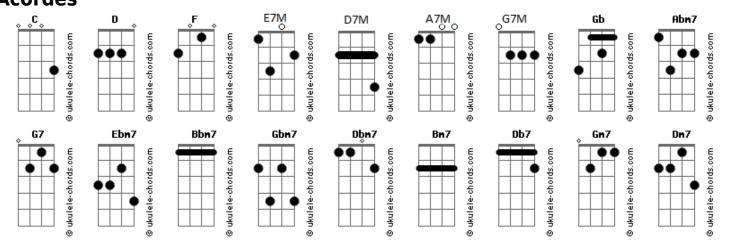

```
      Abm7          Db4  F#7M

                       D7M
And what of the nights
              Bm7
When you looked in my eyes
         Abm7    G7     F#7M
And you told me that you loved me
                  D7M
You made feel in my heart
          A7M
It was real not a spark
              Abm7
But a flame burning inside
                  Db7
Who can put out this fire inside
( Gbm7   Gbm7   D7M   Dbm7   Bm7  Dbm7 )
