

Jonas Brothers - Lonely (feat. Diplo)

```
[Segunda Parte]
Intro: Bbm Gb Db Ab
                                                                Bbm
Guitarra 1
                                                          Wanna ride with you
                                                                  Db
                                                          Till the world stands still
                                                                     Bbm
                                                          Like there's no one
Guitarra 2
                                                          Gb
                                                                Db Ab
                                                          Else but us
                                                                Bbm
                                                          Wanna dance with you
[Primeira Parte]
                                                                 Db Gb
                                                          Until we can't stand up
Bbm Gb Db Ab
      Bhm
Wanna ride with you
                                                          Until we both give into love
         Db
Till the wheels fall off
                                                          [Pré-Refrão]
       Bbm Gb
Until we're running out of road
                                                          Everybody needs a
     Bbm Gb
Wanna dance with you
                                                          Place to hide
       Db Ab
                                                          This don't have to be
Till the music stops
                                                            Dh Ah
       Bbm Gb
                       Db Ab
                                                          A bumpy ride
Until we got no place to go
[Pré-Refrão]
                                                          I think we should
                                                             Bbm Gb
Everybody needs a
                                                          Be alone tonight
 Bbm
        Gb
Place to hide
This don't have to be
                                                          Because we don't
 Db Ab
                                                          Db Ab
                                                          Have to be lonely
A bumpy ride
                                                          Everybody needs
I think we should
                                                              Bbm Gb
   Bbm Gb
                                                          Some company
Be alone tonight
                                                          Let's talk about it
                                                            Db Ab
                                                          Over one more drink
Because we don't
Db Ab
Have to be lonely
                                                          I think you should
Everybody needs
                                                             Bbm
   Bbm Gb
                                                          Be alone with me
Some company
Let's talk about it
                                                          Because we don't
   Db
                                                          Db
Have to be lonely
Bbm Gb Db Ab
                                                                    Ab
Over one more drink
                                                          Don't have to be lonely
I think you should
   Bbm
Be alone with me
                                                          [Refrão]
                                                           Bbm Gb Db Ab
Because we don't
                                                          Lonely
Have to be lonely
                                                                          Bbm Gb Db Ab
               Bbm Gb Db Ab
                                                          Don't have to be lonely
Don't have to be lonely
                                                                          Bbm Gb Db
                                                          Don't have to be lonely
                                                                          Bbm Gb Db Ab
[Refrão]
                                                          Don't have to be lonely
Bbm Gb Db Ab
                                                          [Terceira Partel
Lonely
                Bbm Gb Db Ab
Don't have to be lonely
                                                                Bbm
                Bbm Gb Db
                                                          Wanna ride with you
Don't have to be lonely
                                                                  Db
                                                                             Ab
                                                          Till the wheels fall off
                Bbm Gb Db Ab
Don't have to be lonely
                                                                     Bbm Gb
                                                                                    Db Ab
                                                          Until we're running out of road
