

Jonas Brothers - Rollercoaster

Tom: G

Nights, flying the down 10, nearly 2 am
 Happiness begins
 Days lifted in haze, we weren't just a phase
 We weren't just pretend (just pretend)
 I remember low lows and high highs
 We threw our hands up, palms out to the
 Skies iiiiiiiees

It was fun when we were young and now
 We're older
 Those days when we were broke in
 California
 We were up-and-down and barely made it
 Over
 but i'd go back and ride that rollercoaster
 It was fun when we were young and now
 We're older
 Those days that are the worst, they seem to
 Glow now
 We were up-and-down and barely made it over
 But i'd go back and ride that rollercoaster with you
 wooh ooh-ooh
 wooh ooh
 wooh ooh-ooh (oh, oh)

But i'd come back and ride that rollercoaster

Faith led me to the clouds, reaching for the ground
 His life was upside down
 Now everything has changed, we found better days
 But i still hear the sound
 I remember low lows and high highs
 We threw our hands up, palms out to the skies

It was fun when we were young and now we're older
 Those days when we were broke in california
 We were up-and-down and barely made it over
 But i'd go back and ride that rollercoaster
 It was fun when we were young and now we're older
 Those days that are the worst, they seem to glow now
 We were up-and-down and barely made it over
 But i'd go back and ride that rollercoaster with you
 wooh ooh-ooh (yeah, with you)
 wooh ooh (with you, with you)
 wooh ooh-ooh (oh, oh)
 But i'd come back and ride that rollercoaster
 It was fun when we were young and now we're older (oh)
 Those days that are the worst, they seem to glow now (yeah)
 We were up-and-down and barely made it over
 But i'd go back and ride that rollercoaster

Nights, flying the down ten, nearly 2 am
 Happiness begins
