

Jordan Feliz - Somebody Loves You

tom:
[Intro] Gbm E Dbm D

[Primeira Parte]

Feeling insecure
Like it just might shatter
And you're still not sure
If you really matter
All the wounding words
That you hear so often
But the silence hurts
'Cause you feel forgotten

[Pré-Refrão]

When the world won't
Give your heart a home
You may be lonely
But you're not alone

[Refrão]

Somebody loves you more than you know
Loved you enough to lay His life down
Somebody loves you and He's not letting go
Everything changes when you find out
Somebody loves you
Loves you, loves you, loves you

[Segunda Parte]

What if God himself
Wouldn't live without you
Heaven knows you well
'Cause He talks about you
Doesn't leave your side
When you're less than perfect
When you ask Him why

He just says you're worth it
[Pré-Refrão]

When it seems like
You've been cast aside
Don't it feel so
Good to realize
[Refrão]

Somebody loves you more than you know
Loved you enough to lay His life down
Somebody loves you and He's not letting go
Everything changes when you find out
Somebody loves you
Somebody loves, loves, loves
Somebody loves you
Gbm E A D

[Ponte]

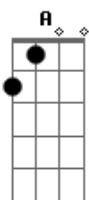

Let it be the air your heart can breathe
Let it be the truth your soul believes
Let it wash every lie away
Let His scars tell you everyday
Somebody loves you
Loves, loves, loves

[Refrão 2]

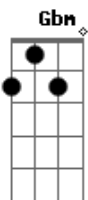

Somebody loves you and He's not letting go
Everything changes when you find out
Somebody loves you
And somebody
Loves, loves, loves
Somebody loves you
And He's not letting go
Somebody loves you

[Final] Gbm E Dbm D
