

Jorge e Mateus - When You Look Me In The Eyes

```
Intro: D Em Gb G 2X
                                                                 When you look me in the eyes,
                                                                  I catch a glimpse of heaven.
If the heart is always searching,
                                                                  I find my paradise,
Can you ever find a home?
                                                                 When you look me in the eyes.
I've been looking for that someone,
I'll never make it on my own.
                                                                  More and more, I start to realize,
Dreams can't take the place of loving you,
                                                                  I can reach my tomorrow,
There's gotta be a million reasons why it's true.
                                                                  I can hold my head high,
                                                                  And it's all because you're by my side.
When you look me in the eyes,
                                                                 When you look me in the eyes,
And tell me that you love me.
Everything's alright,
                                                                 And tell me that you love me.
                                                                  Everything's alright,
When you're right here by my side.
                                                                 When you're right here by my side.
When you look me in the eyes,
I catch a glimpse of heaven.
                                                                 When I hold you in \operatorname{\mathsf{my}} arms
I find my paradise,
                                                                  I know that it's forever
When you look me in the eyes.
                                                                  I just gotta let you know
How long will I be waiting,
                                                                  I never wanna let you go
To be with you again
                                                                 When you look me in the eyes,
Gonna tell you that I love you,
                                                                  And tell me that you love me.
In the best way that I can.
                                                                  Everything's alright,
I can't take a day without you here,
                                                                 When you're right here by my side.
You're the light that makes my darkness disappear.
                                                                 When you look me in the eyes,
When you look me in the eyes,
                                                                  I catch a glimpse of heaven.
And tell me that you love me.
                                                                  I find my paradise,
Everything's alright,
                                                                 When you look me in the eyes.
When you're right here by my side.
                                                                 D Em Gb G 2X
