

# Jorja Smith - Don't Watch Me Cry

tom:

[Primeira Parte]

Oh, it's hurts the most 'cause I don't know the cause

Maybe I shouldn't have cried when you left and told me not to wait

Oh, it kills the most to say that I still care

Now I'm left tryna rewind the times you held and kissed me back

[Pré-Refrão]

I wonder if you're thinkin' "Is she alright all alone?"

I wonder if you tried to call but couldn't find your phone

Have I ever crossed your thoughts because your name's all over mine

A moment in time, don't watch me cry

A moment in time, don't watch me cry

[Refrão]

I'm not crying 'cause you left me on my own

I'm not crying 'cause you left me with no warning

I'm just crying 'cause I can't escape what could've been

Are you aware when you set me free?

All I can do is let my heart bleed

[Segunda Parte]

Oh, it's harder when you can't see through the thoughts

Not that I wanna get in but I want to see how your mind works

No, it's harder when they don't know what they've done

Thinking it's better they leave, meaning that I'll have to move on

[Pre-Refrão]

I wonder if you're thinkin' "Is she alright all alone?"

I wonder if you tried to call but couldn't find your phone

Have I ever crossed your thoughts because your name's all over mine

A moment in time, don't watch me cry

A moment in time, don't watch me cry

[Refrão]

I'm not crying 'cause you left me on my own

I'm not crying 'cause you left me with no warning

I'm just crying 'cause I can't escape what could've been

Are you aware when you set me free?

All I can do is let my heart bleed
