Joshua Bassett - All In Due Time

tom:
```
                                    Em
```

[Primeira Parte]

```
G                       Bm
 Get your head off the ground
               Em        D           C           Cm
Take a step back get a good look around
G                       Bm
 I know I'll find my way out
                         Em
Just cause it gets better
D               C           Cm
Don't make it better right now
```
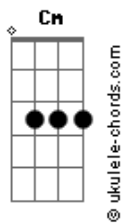

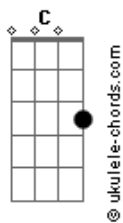

[Pré-Refrão 1]
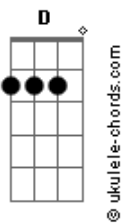

```
Em              D           C
Are all of my tears gonna turn into something?
    Em          D           C
Is all of this pain just for nothing?

Just for nothing
```
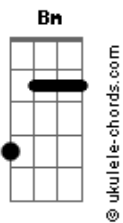

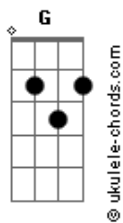

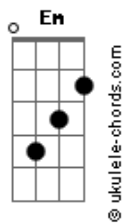

[Refrão]

```
         G                   D
Well maybe someday it'll all fade away
         Em          D           C           Cm
And the weight of the world won't be mine
         G                   D
And maybe I'll say at the end of the day
         Em          D           C           Cm
Who I am made it all worth the while
                 Em          D           C
And these scars will be stories I tell
Cm          G           Bm
All in due time
```

[Segunda Parte]

```
G                       Bm
 All the ways that I've changed
                 Em          D           C
Still cl?aning up all the mess that I've mad?
G                       Bm
 The fires I'm putting out
                         Em
Just cause it's over
    D               C
It don't mean I'm over it now
```

[Pré-Refrão 2]

```
Em              D           C           Em
Third-degree burns yeah it hurts while it's healing
Em              D           Em
Still trying to get back the feeling

Ohhh
```

[Refrão]

```
         G                   D
Well maybe someday it'll all fade away
         Em          D           C           Cm
And the weight of the world won't be mine
         G                   D
And maybe I'll say at the end of the day
         Em          D           C           Cm
Who I am made it all worth the while

And these scars will be stories I tell
                 G           Bm
All in due time
```

[Final]
```
C                       G
Ohhh all in due time
Cm
Ohh all in due time
```
