

Josiah Queen - Cloud And Fire

tom:

A

This world is a desert

But it ain't my home

There's holes in these shoes

From walking these roads

Searching for answers

What does this all mean?

Did I find God, or did He find me?

Cloud by the day

Fire by the night

I'll follow You

Noon or moonlight

All of these years

Feels like a lifetime

I'm finding it's true, ooh-oo

There ain't no one quite like You

A - Gbm - D - E

Wandering the desert

You learn what you need

Food and a shelter

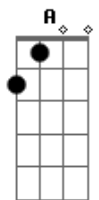

Water to drink

I need Your love more

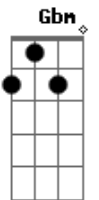

Than all of those things

Without you God

Where would I be?

Cloud by the day

Fire by the night

I'll follow You

Noon or moonlight

All of these years

Feels like a lifetime

I'm finding it's true, ooh-oo

There ain't no one quite like You

A - Gbm

Wherever You lead

There I will go

The ups and the downs

The highs or the lows

I know

Cloud by the day

Fire by the night

I'll follow You

Noon or moonlight

All of these years

Feels like a lifetime

I'm finding it's true

There ain't no one quite like You
