 In the morning, sunlight shining The face in the mirror knows  
 the crime  
 A E Gbm A E Gbm  
 Voices cry from the darkness A broken promise one more time  
 D A E  
 You say you believe in love And still you run  
 D A E E  
 You only believe in God when you come undone  
 A E Gbm D  
 So here you are... You brought everything on yourself  
 A E Gbm D  
 So easy to fall When you're all alone by yourself  
 A E Gbm D A E  
**Gbm**  
 He said he's tried everything he could A fool's illusion one

 There'll be demons waiting in the shadows Of a concrete world

 You say you believe in love And still you run  
 D A E E  
 You only believe in God when you come undone
