

Journey - Turn Down The World Tonight

Tom: **A**

A
Caught up in the living... getting through each day

When all your tomorrows become faded yesterdays

D
Are you slipping away

A
Blinded by schedules... rushing here and there

Become strangers to each other... I miss you everywhere
D
How did we get this way

E
When the loneliness becomes too much to bear **D**

A
Help me turn down the world tonight

D
Take a quiet moment somewhere we can unwind

Gbm
Losing touch... we forget to take time to share what's in our hearts

E
Speak what's on our minds

Dbm
In the silence hear your heartbeat next to mine **D**
Bm **D** **E** **A**
Baby help me turn down the world tonight

A
So much information streaming at us fast

What I really need to know is if we can make it last

D
I wanna keep you close

A
We make commitments... take responsibility

Why do we let them come between you and me

D
That's when I miss you most

E
We gotta take this night... knowing our love won't wait **D**
Bm **D** **E**
Before our moment is gone... baby say it's not too late

Dbm **D**
Far beyond the noise with your body next to mine
Bm **D** **E** **A**
Won't you help me turn down the world tonight
