

## Jp Cardoso - Strawberry Ice Cream

```
Tom: A
                                                              but I like....
  D
                                                                       F
I want... You want
                                                              D Dbm E D Dbm E
I want you to see me
                                                              (interlude)
                                              Dbm
You want me to see you.. But that won't work
                                                                       Dbm
But we won't work
you won't... i won't
Dbm
                                                                       D
you won't see me and i won't see you anymore
                                                                       Dbm
but i want more.. but you're too far
                                                                   Ε
so we can't do this any longer
                                                                   D
                                                              but you know
I wish i were stronger
                                                                   D
                                                              and I know
    Dbm
you wish you were closer
                                                                  Dbm
    Ε
                                D
and i wish you were mine
    Dbm
and you wish i were right there
                                                                 D
by your side
                                                                  Dbm
                                                        Dbm
                                                              so we won't
but you won't, so we won't
                                                                E
                                               D
so we don't get to see each other
```
