

Judas Priest - Lost And Found

Tom: C

(intro) Em C G D Am C G

Em G
I always used to be afraid
D Am
That I was gonna lose my way
Em G D
I never used to walk in line but stray
Em G
I never thought I'd see it through
D Am
That I could deal with losing you
Em G A (ou D)
But suddenly I see the light of day

Em C D
Leading me in from out of the night
A D Em
Staying on course I'm still alive
Em C D
I have to confess I never thought I thought I
A D
Would ever survive
G C Am D
I was lost and found
Dm7 G
I had run aground
G C Am
I was lost
Em
But now.....I'm found

Em C G D Am C D

Focused on my altered state

I would disorientate
Suffering alone amongst the crowd
Drifting on a sea of doubt
And no one ever heard me shout
That I was lost and could find my way

No one at hand, having no plan
I stumbled through a barren land
After so long, of going wrong
I found the road

I was lost and found
I had hit the ground
I was lost but now...I found

C G F
That I don't need no one to survive
C G F D
You've got to believe alone, you'll rise

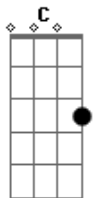

(solo) Em C G D Am C D

Starting to run, shedding the load
Now I can see I'm close to home
After so long, of going wrong
I found the road

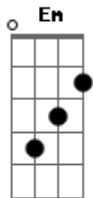

I was lost and found
I had hit the ground
I was lost but now
I was lost and found
I had hit the ground
I was lost but now
I was lost and found
I had hit the ground

G
I was lost but now...I'm found
