

Jungkook - Standing Next To You

tom: [Intro]

Standing next to you

[Verse 1]

Play me slow

Push up on this funk and give me miracles (Let ya body know)

Make it known

How we left and right is something

We control (You already know)

[Pre-Chorus]

You know that all night long we rock to this

Screaming I testify this lovin?

All night long we flock to this

Screaming, I testify that

We'll survive the test of time

They can't deny our love

They can't divide us we'll survive

The test of time

I promise I'll be right here

[Chorus]

Standing next to you

Standing in the fire next to you

You know it's deeper than the rain

It's deeper than the pain

When it's deep like DNA

Something they can't take away, ayy

Take-take-take-take-take off

[Post-Chorus]

Standing next to you (You)

Standing next to you

[Verse 2]

Afterglow

Leave ya body golden like

The sun and the moon (You already know)

[Pre-Chorus]

You know that all night long we rock to this

Screaming I testify this lovin?

All night long we flock to this

Screaming I testify that

We'll survive the test of time

They can't deny our love

They can't divide us we'll survive

The test of time

I swear that I'll be right here

[Chorus]

Standing next to you

Standing in the fire next to you

You know it's deeper than the rain

It's deeper than the pain

When it's deep like DNA

Something they can't take away, ayy

Take-take-take-take-take off
