   Everybody gets high sometimes
    G Am
You know
F C
   What else can we do G Am
When we're feeling low?
   С
   So take a deep breath and
    G Am
Let it go
                                С
 You shouldn't be drowning
    G Am
On your own
                   F
                                      C
And if you feel you're sinking
            G Am
I will jump right over

F C G Am

Into cold, cold water for you
                   F C
And although time may take us into
 G Am
Different places
                                               G Am
             F C
I will still be patient with you
                             G
And I hope you know
                   F C G Am
I won't let go
                     FC GAm
I'll be your lifeline tonight
                     F C G Am
I won't let go
                       FC GAm
I'll be your lifeline tonight
  Cause we all get lost sometimes
G Am
You know?
F C
  It's how we learn
```
