

## **Justin Bieber - DAISIES**

```
If I could get in
Intro: G Em C D
                                                                 Drop me a pin
        G Em C D
G Em C D
G Em C D
                                                                 Hop in the whip and come over
                                                                 Don't wanna be friends
[Primeira Parte]
                                                                 Just skin-to-skin
                                                                 I wanna get closer
 Throwin' petals like
                                                                 And closer and closer, uh
Do you love me or not?
                                                                 [Refrão]
  Head is spinnin'
And it don't know when to stop
                                                                 The way you got me all in my head
 You said forever, babe
                                                                 Think I'd rather you in my bed
    C
Did you mean it or not?
                                                                 Whatever it is, you know I can take it
 Em C D
Hold on, hold on
                                                                 I'm countin' the days
                                                                  How many days till I can see you again?
 You leave me on read, babe
                                                                 [Ponte]
But I still get the message

G
Em
C
Instead of a line, it's three dots
                                                                 You got me all, all of my love
But I can connect them
                                                                 (Holding my feelings, babe)
 And if it ain't right, babe
                                                                 And you got me all, all
                                                                 Now I'm nodding my head

G Bm
You know I'll respect it
 But if you need time
                                                                 And you got me all
Just take your time
                                                                 All in my feelings, alright
Honey, I get it, I get it, I get it
                                                                 (You got me all in my head
                                                                 You got me nodding my head, you got)
                                                                 'Cause you got me all
The way you got me all in my head
                                                                 All in my feelings, every time
Think I'd rather you in my bed
                                                                 (You got me all in my head
Whatever it is, you know I can take it
                                                                 You got me nodding my head, you got)
I'm countin' the days
                                                                 [Refrão]
 How many days till I can see you again?
[Segunda Parte]
                                                                 The way you got me all in my head
                                                                 Think I'd rather you in my bed
Blowin' kisses like
                                                                 Whatever it is, you know I can take it
Will you catch 'em or not?
                                                                   I'm countin' the days
 I'm Cupid with arrows, babe
                                                                 How many days till, I can see you again?
I'm just shootin' my shot, mm-mm
                                                                 [Final] Bm C G Bm C
[Pré-Refrão]
