Justin Bieber - Go Baby
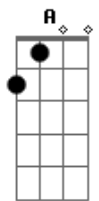

```
                tom:
                      A
        D               A
That's my baby, she's iconic
E           A
Iphone case, lip gloss on it
D                       A
And, oh, my days she keeps 'em talkin'
 E                    A
It's comedy, just block it, oh, my baby

 D                         A
When sunlight turns to shadows and it gets hard to face
    E                            A
Like water to a flower, babe, I know you need the rain
 D                          A
Nothing needs to work out and nothing needs to break
 E                     A
Don't need to pretend that you're okay

 D                    A
So cry on my shoulder, just turn into me
 D            E          A
Cry on my shoulder whenever you need it
 D                                     A
You better believe it that I can hold all the weight
 E           A
That you feel inside
 D                    A
So cry on my shoulder, that lone melody
 D            E              A
Cry on my shoulder, I know your heart breaks, but
 D                   A
Lay it all down and I can love it away
 E
Just stay by my side, oh

     D                  A                      E.  A
So go, baby, go, baby, go, baby, go, baby, go, baby, go, uh
 D                      A                 E.  A
Just go, baby, go, baby, go, baby, go, baby, go, baby, go, oh

 D                  A
Sunday to Sunday, I'm here when you're weak
 E              A
Closer beside me, it's always okay
D                  A
```
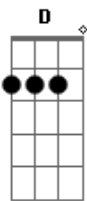

```
Every moment you know where to find me
 E                           A
You don't have to speak, I can read you (ooh)

  D                                     A
When sunlight turns to shadows and it gets hard to face
        E                     A
Like water to a flower, babe, I know you need the rain
 D                                        A
Nothing needs to work out and nothing needs to break (ah-ooh)
 E
Don't need to pretend that you're okay (ah-ooh)

 D                            A
So cry on my shoulder, just turn in to me
 D           E          A
Cry on my shoulder whenever you need it
 D                                    A
You better believe it that I can hold all the weight
 E
That you feel inside
 D                       A
So cry on my shoulder, that lone melody
 D            E              A
Cry on my shoulder, I know your heart breaks, but
 D                   A
Lay you down and I can love it away
 E
Just stay by my side, oh

  D                  A                      E.  A
So go, baby, go, baby, go, baby, go, baby, go, baby, go, uh
 D                      A                 E.  A
Just go, baby, go, baby, go, baby, go, baby, go, baby, go, oh
(ooh)

  D.           A.            D.    E.   A
What you cryin', what you cryin' for? (Ooh-ah)
 D           A           D     E       A
What you cryin', what you cryin', what you cryin' for? (Ooh-
ah)
 D           A           D     E       A
What you cryin', what you cryin', what you cryin' for? (Ooh-
ah)
 D           A           D    E        A
What you cryin' for? What you cryin' about? (Ooh-ah)
```
