Dm F
Don't do it, baby
C G
Don't do it to me, no

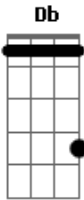

Dm F C G x4
I know you don't wanna talk, right
We've been on and off like the crosslights
You heard I'm playin' with them hoes like I golf, right?
When I touch you, I get frostbite
Girl you're so cold, so cold, so cold
How we so young but livin' so old?
In the bed together but we sleepin' solo
That could drive you loco
You supposed to me my uno, Yoko Ono
Oh no, round two again
We've been fighting more than Ryu and Ken
Last time we argued eight straight days
I learned my lesson, I got straight As
And I know it's deeper than masseuses
Oh, you know I eat the cookie like I'm Lucious
Go ahead and take the time
But it's a waste of time if your waist ain't on mine
Think about it
