

Justin Bieber - Runaway Love

```
C)
(com acordes na forma de
Capostraste na 1ª casa
( Dm7 )
You see my baby up and hit the road
                                  Dm7 Am
Where she's goin that's what nobody knows
                       G
I need to find her 'fore another man does
                     G Dm7 Am
I wouldn't want him to steal my love
                          Dm7
I'm just trying to be cool, cool, cool, trying to be cool
                     Dm7
                              Am
What you expect me to do? Oh, oh, oh, yeah
           G
                       Dm7 Am
I'm just trying to find, find, find
Sweet love of mine
I'm running out of time, where is my runaway love?
Searching low and high, know that I'm not giving up
                     \mathsf{Am}
I'd give it all up for us, it'll never be enough
I won't stop until I find my runaway love
Dm7
See my baby really needs some help
                           G
'Cause she can never stay at home by herself
                           G
```

```
She says she needs a little company
                            G Dm7
Even if she's not always with me, yeah, oh
                          Dm7
I'm just trying to be cool, cool, cool, trying to be cool
                   Dm7
                           Am
What you expect me to do? Oh, oh, oh, yeah
                       Dm7
I'm just trying to find, find, find
Sweet love of mine
I'm running out of time, where is my runaway love?
Searching low and high, know that I'm not giving up
                      Am
I'd give it all up for us, it'll never be enough
I won't stop until I find my runaway love
Ponte:
Dm7
            Am
Why can't I find the love of mine
When you're standing right in front of my face?
Oh why? I must be blind
        G
How did I let you get away? Yeah, yeah
I'm running out of time, where is my runaway love?
Searching low and high, know that I'm not giving up
I'd give it all up for us, it'll never be enough
I won't stop until I find my runaway love (2x)
```
