

# Justin Timberlake - Justin Timberlake

Tom: D

Bitter sweet thing, could this be a dream  
 Or just the same nightmare that keeps me awake  
 Feel it in my brain, tall shot of pain  
 Pour a little up now, for the love that we made  
 I feel it in the morning, you're still here in the morning  
 I see you, but you gone. Telephone the doctor, I'm not okay  
 The bottom of the bottle, to fill this empty heart up  
 A thousand proof don't change the truth  
 I dive in, but I can't  
  
 I can't drink you away  
 I've tried Jack, I've tried gin,  
 I've tried all of them in  
 But I can't drink you away  
 All these rocks, I can't swim out of this skin I'm living in,  
 say  
 Now tell me, baby, don't they make a medicine for heart break  
 Ohh, tell me baby, oh yeah  
 Now don't they make a medicine for heart break  
  
 Got a pounding on my brain, so I drowned it away  
 When the sun comes up tomorrow  
 You can find me doing the same

'Cause I just can't forget  
 The way we turned out this bed  
 And now the only thing that sleeps here is a ghost of you  
 instead

I feel it in the morning, you're still here in the morning  
 I see you, but you gone. Telephone the doctor, I'm not okay  
 The bottom of the bottle, to fill this empty heart up  
 A thousand proof don't change the truth  
 I dive in, but I can't

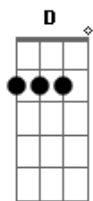

I can't drink you away  
 I've tried Jack, I've tried gin,  
 I've tried all of them in  
 But I can't drink you away  
 All these rocks, I can't swim out of this skin I'm living in,  
 say  
 Now tell me, baby, don't they make a medicine for heart break  
 Ohhh, tell me baby, oh yeah  
 Now don't they make a medicine for heart break

I can't drink you away  
 I've tried Jack, I've tried gin,  
 I've tried all of them in  
 But I can't drink you away  
 All these rocks, I can't swim out of this skin I'm living in,  
 say  
 Now tell me, baby, don't they make a medicine for heart break  
 Ohh, tell me baby, oh yeah  
 Now don't they make a medicine for heart break

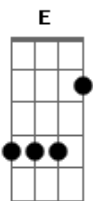

Tell me, baby  
 Can't they make a medicine for my heart break, heart break  
 Tell me baby,  
 Can't they make a medicine for my heart break

I can't drink you away  
 I've tried Jack, I've tried gin,  
 I've tried all of them in  
 I can't drink you away  
 All these rocks, I can't swim out of this skin I'm living in
