

# JVKE - Worlds Collide

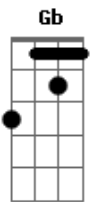

tom:  
 Eyes on the parade  
 Don't turn around  
 Stay till the end  
 It's a sweet soft serenade  
 Oh, what a sound  
 Play it again  
 When our worlds collide, yeah  
 You make me feel like I could fly  
 When our worlds collide  
 And I knew I was just like you  
 From the moment you arrived, oh

So let's light off bottle rockets  
 Water balloons, heck of a party  
 We're about to ruin if you're thinking trouble  
 Then I'll be standing by your side  
 When our worlds collide  
 You make me feel like I could fly  
 When our worlds collide, yeah  
 We'll be stealing the stars across the sky  
 And if there's no forever  
 Baby, that's alright, let me pull the trigger  
 Time to kiss it all goodbye  
 You're my powder keg, and I'm your little fire  
 When our worlds collide
