

K Flay - High Enough

Tom: **G**

I don?t like anyone better than you, it?s true

I?d crawl a mile in a desolate place with the snakes, just for you

Oh I?m an animal hand me a Tramadol gimme the juice

You are my citadel you are my wishing well my baby blue

I used to like liquor to get me inspired

But you look so beautiful, my new supplier

I used to like smoking to stop all the thinking

But I found a different buzz

The world is a curse it?ll kill if you let it

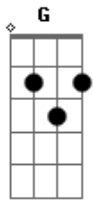

I know they got pills that can help you forget it

They bottle it, call it medicine

But I don?t need drugs

Cause I?m already high enough
